Information as of 06/30/2020

This fund is only available in the Personal Retirement Planner Deferred Variable Annuity.

Description:

The fund uses a multimanager approach that provides exposure to a broad universe of mid-cap growth stocks. Each advisor independently manages its portion of fund assets, using its own research and investment methods. Both advisors use fundamentals, bottom-up stock selection to analyze and identify companies they believe have outstanding management and catalysts for growth, such as new products, market-share gains, and improving cost structure. Both advisors look for strong earnings-per-share growth and proven and sustainable competitive advantages. This is an aggressive investment.
